Preface

This Companion Guide to the version 005010 (v5010) ASC X12N Implementation Guides and associated errata adopted under HIPAA clarifies and specifies the data content when exchanging electronically with Los Angeles County Department of Mental Health (LACDMH). Transmissions based on this companion guide, used in tandem with the v5010 ASC X12N Implementation Guides, are compliant with both ASC X12 syntax and those guides. This Companion Guide is intended to convey information that is within the framework of the ASC X12N Implementation Guides adopted for use under HIPAA. The Companion Guide is not intended to convey information that in any way exceeds the requirements or usages of data expressed in the Implementation Guides.

This Companion Guide addresses specific DMH business process requirements for transmitting claim data to the LACDMH Integrated Behavioral Health Information System (IBHIS) system. In addition to the LACDMH business requirements, all 837 transactions transmitted from the providers to LACDMH must be compatible with the HIPAA requirements. It is assumed that trading partners are familiar with the HIPAA Implementation Guides and, as such, this guide does not attempt to instruct trading partners in the creation of an entire HIPAA transaction.

However, samples of entire transaction will be given to trading partners during registration/orientation process. This Companion Guide is subject to change. Please visit our website for the latest version:

1 INTRODUCTION

1.1 Scope

This companion guide is intended to be used by Los Angeles County Department of Mental Health (LACDMH) contracted providers in support of the following ASC X12 transaction implementations mandated under HIPAA:

- ASC X12 Health Care Claim: Professional (837) as specified in guide 005010X222 and 005010X222A1 (837P)
- ASC X12 Health Care Claim: Institutional (837) as specific in guide 005010X223 and 005010X223A2 (837I)

These guides are available from ASC X12 at http://store.X12.org/

1.2 Overview

Section 2 provides information about establishing a trading partner relationship with LACDMH.

Section 3 provides a Process Flow of the claiming transactions.

Section 4 identifies EDI related contacts within LACDMH.

Section 5 provides the LACDMH technical requirements for file exchange and the envelope segments.

Section 6 provides the LACDMH specific business rules and limitations.

Section 7 identifies the LACDMH acknowledgment transactions.

Section 8 provides operational information.

Section 9 provides the LACDMH requirements and usage for the 837 claiming transactions.

Section 10 provides sample 837/835/999/277 transactions

This information must be used in conjunction with the ASC X12 implementation guides that are available at http://store.X12.org/

2 GETTING STARTED

2.1 Trading Partner Registration

Trading Partners

An EDI Trading Partner is defined as any LACDMH customer (provider, billing service, software vendor, financial institution, etc.) that transmits to, or receives from LACDMH any standardized electronic data (i.e. HIPAA claim or remittance advice transactions).

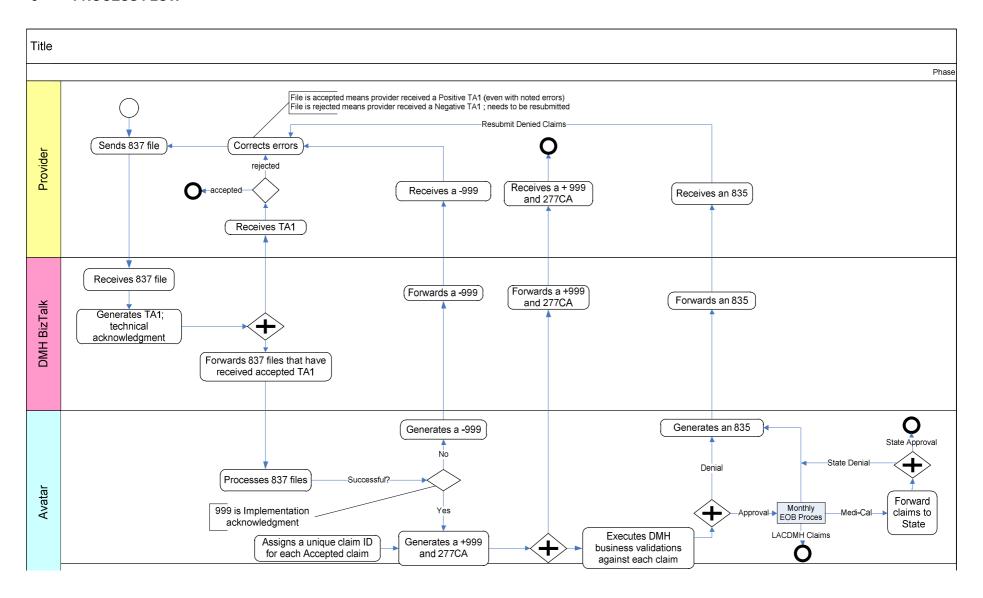

You can find additional information on registering for EDI:

5 FILE EXCHANGE/FILE STRUCTURE/CONTROL SEGMENTS

5.1 File Exchange

See the IBHIS Secure File Exchange Instructions for details on how to upload claim files and how to download the transaction response files. The instructions can be found on the following webpages:

Legal Entity: http://lacdmh.lacounty.gov/hipaa/IBHIS_EDI_Guides.htm

Fee-for-Service: http://lacdmh.lacounty.gov/hipaa/ffs IBHIS EDI Guides.htm

5.2 File Requirements

837 claim files cannot contain carriage returns. The data must be wrapped as in a true EDI file.

5.3 ISA-IEA on Inbound transactions

Loop ID	Reference	Name	Notes/Comments
	ISA01	Authorization Information Qualifier	LACDMH expects '00'.
	ISA03	Security Information Qualifier	LACDMH expects '00'.
	ISA05	Interchange ID Qualifier	LACDMH expects '14'.
	ISA06	Interchange Sender ID	LACDMH expects the provider's Duns plus suffix. Enter the 9-digit DUNS number, followed by 6 spaces.
	ISA07	Interchange ID Qualifier	LACDMH expects '14'.
	ISA08	Interchange Receiver ID	Enter LA County's 9-digit DUNS number, followed by 6 spaces. The required value for LACDMH is '132486189 '.
	ISA16	Component Element Separator	In order to process procedure codes that contain modifiers, LACDMH only accepts ':' as the Component Element Separator

5.4 GS-GE on Inbound transactions

LACDMH accepts only one Functional Group per Interchange.

Loop ID	Reference	Name	Notes/Comments
	GS02	Application Sender's Code	Enter the 9-digit DUNS number, with no trailing spaces.
	GS03	Application Receiver's Code	Enter the 9-digit DUNS number, with no trailing spaces.

6 LACDMH BUSINESS RULES AND LIMITATIONS

6.1 Business rules for Inbound 837 Transactions

- 1. LACDMH requires an authorization for all services. There are 3 types of authorizations. A provider will put only 1 authorization on a claim line. If a service requires individual Member Authorization, the claim will only have the Member Authorization. Otherwise, Legal Entities will use the Provider Authorization and Fee-for-Service providers will use the Funding Source Authorization.
 - Provider Authorizations, or P-Auths, are specific to a Legal Entity/Contracting Provider and to a Funded Program/Funding Source. Generally, Provider Authorizations will cover a complete Fiscal Year. A report with a Legal Entity's Provider Authorizations will be included in the Legal Entity's EFT extracts.
 - Provider Authorizations begin with a 'P', followed by a number.
 - Member Authorizations are specific to a client and to a Contracting Provider. They authorize
 specific services for a specific duration of time. Member Authorizations are also tied to a Funded
 Program/Funding Source, however when claiming only send the Member Authorization. The
 initiation of a Member Authorization will vary based on the type of services provided.
 - Day Treatment and Fee-for-Service over-threshold authorizations will be requested through ProviderConnect, a web portal to the IBHIS system. Providers will see the authorization number when they make the request, however the authorization cannot be used on claims until the authorization request has been approved. Providers will also be able to see the authorization status on ProviderConnect.
 - Professional services rendered by a Fee-For-Service provider in a Fee-For-Service Hospital setting will obtain the Treatment Authorization Request(TAR) number from the Hospital. The professional claims submitted for these services should contain the TAR number as the authorization number in claim. This is a 11 digit number.
 - Member Authorizations are all numeric.

•

- Funding Source Authorizations will be used by Fee-for-Service providers for under-threshold and medication support services. Under-threshold Funding Source authorizations will cover a fourmonth (trimester) period of time and providers will use a different Funding Source authorization for each trimester. Further information on which Funding Source authorization to use will be provided in Fee-for-Service Provider Bulletins.
 - Funding Source Authorizations begin with an 'F', followed by a number.
- 2. Legal Entity providers must use Medi-Cal Authorizations for claims that are billable to Medi-Cal.
- 3. The Rendering Provider on the claim must be associated with the Legal Entity or FFS provider in the IBHIS Contracting Provider table.
- 4. The Practitioner's Discipline will be determined based on the information stored in the IBHIS Practitioner/Performing Provider table. IBHIS validates that the Practitioner (837 Rendering Provider) is allowed to perform the procedure code on the claim, based on the discipline stored in the IBHIS Practitioner/Performing Provider table.
- 5. Group claims Refer to the explanation found in the Group Claim Bulletin located on the IBHIS EDI News/Alerts webpage: http://lacdmh.lacounty.gov/hipaa/IBHIS_EDI_News.htm.
- 6. Refer to the Addendum Guide to Procedure Codes for IBHIS located at http://dmh.lacounty.gov/wps/portal/dmh/admin_tools/prov_manuals for a complete list of Procedure Codes in IBHIS (including the modifiers for Duplicate Overrides (59 & 76), Telephone (SC), Telepsychiatry (GT) and/or County Funded (HX). QA Bulletin 14-04 IBHIS Addendum Guide to Service & Procedure Codes (http://file.lacounty.gov/dmh/cms1_218857.pdf) contains further information regarding the guide and the use of duplicate override modifiers.
- 7. Use the County Funded Procedure Code Modifier when submitting most claims using non-Medi-Cal outpatient or CalWORKs Provider Authorizations. As of June 2015, G9007 is the only non-Medi-Cal procedure code that does not use the HX modifier.
 - The duplicate (76, 59), telephone (SC) and telepsych (GT) modifiers are not used when sending claims using non-Medi-Cal authorizations that use the HX County Funded modifier.
 - The County Funded Procedure Code Modifier, HX, is not used on Life Support claims. It is used on Outpatient, Residential and Inpatient claims.
- 8. LACDMH 835s
 - System creates 835 segregated by Fiscal Year.

- Providers will receive an 835 for all Denied claims at the time that the claim is adjudicated and an 835 for all approved claims when the provider receives payment.
- 9. Retroclaim adjudication.
 - DMH Approved Medi-Cal billable calims are subsequently submitted to State for adjudication. Medi-Cal claims that are subsequently denied by the state will result in a 2nd 835, known as a retroclaim adjudication. Retroclaim adjudication 835s follow all of the standard HIPAA 835 requirements for reversals and corrections. See the HIPAA 835 v5010 Technical Report, section 1.10.2.8 Reversals and Corrections for further information.
 - Retroclaim adjudications will also be reported in all SIFT reports that provide claim level data.
- 10. Replacement Claims:
 - Send Replacement claims when you've received a Retroclaim adjudication for a Medi-Cal denial
 and need to correct the claim and have it resubmitted to the state. You can send a Replacement
 claim after each Retroclaim adjudication/Medi-Cal denial.
 - Do not send Replacement claims in response to LACDMH denials, i.e.any claim that was not paid in the initial adjudication cycle. Send in a new Original claim to correct claiming errors.
 - You can only replace an original claim one time. If you need to make an additional replacement, replace the replacement claim, not the original.
 - You need to wait for the receipt of your original payment 835 before submitting a replacement to DMH.
- 11. Residential, PHF and Life Support Claims.
 - Claims for Residential, PHF and Life Support services must be reported using the 837 Professional format.
 - Residential, PHF and Life Support claims must report claims in UNITS using 'UN' as the Unit or Basis of Measurement Code in SV103. The Units are the number of days you are claiming for.
- 12. Successful claims processing is dependent on consistency between 837 claim data and the client data that is established through the Client Web Services interface. The following inconsistencies will result in claim denials:
 - The client ID, gender and date of birth on the claim must match the client ID, gender and date of birth in IBHIS.
 - Client ID 2010BA/NM109 Subscriber Primary Identifier
 - Gender 2010BA DMG03 Subscriber Gender Code
 - Date of Birth 2010BA DMG02 Subscriber Birth Date
 - IBHIS validates that the client has a Legal Entity or FFS episode for the date of service on Outpatient and Day Treatment claims.
 - IBHIS validates that the client has a unique episode at the program of service level for all 24-hour services and that the service/statement dates are within the episode. 24-hour services include Inpatient, Residential, psychiatric health facility (PHF) and Life Support.
 - Inpatient, Residential, PHF and Life Support (24-hour) claims that include the discharge date will be denied. This rule also applies when the date of service, admit and discharge dates are the same date.
 - IBHIS validates that claims with Medi-Cal Funding Source authorizations have an established Medi-Cal Guarantor in their Financial Eligibility (Medi-Cal (10)). The Medi-Cal Guarantor must be set with Eligibility Verified set to Yes.
 - IBHIS validates that claims with non-Medi-Cal Funding Source authorizations have the LA County Guarantor (16) in their Financial Eligibility.
- 13. COS Claims COS claims will be processed the same as any other 837 claim:
 - COS claims are delivered to the same file location as any other 837 file.
 - COS claims can be included in the same 837 transaction as an 837 that contains direct service claims.
 - COS claims will be reported via the standard 999, 277CA and 835 response files.
 - Void/Replacement functionality will be available in the same way that any 837 for direct services is Replaced or Voided.
 - They will be listed on all SIFT reports that provide claim level data.
 - COS claims must be reported with the total # of minutes for all practitioners involved in providing the service. DMH IBHIS rate tables have been modified to pay by the minute, rather than by the hour.
- 14. LACDMH allows one service line per claim.

- 15. LACDMH requires each Inpatient (837I), Residential (837P), PHF (837P) and Day Treatment (837P) day to be reported as a single claim, i.e. there must be one service line per claim and one day per service line.
- 16. Claiming Services that are subject to Cost Based Payment Method, such as claims submitted for services rendered at an Urgent Care Center (UCC) program that follows the cost based payment model. Payment based on the cost and not based on the services submitted.
 - Provider must acquire a separate DUNS number for the Cost Based Program/Urgent Care Facility.
 - Provider must complete a separate TPA under the new DUNS number and there will be a separate integration folder available for claiming.
 - LACDMH require the claims to be submitted on 837P format using the DUNS number acquired for the UCC facility in the ISA06, GS02 and 1000A/NM109 fields.
 - The clients served under the UCC can share the same outpatient episode created under the Legal Entity. If no outpatient episode exist under the Legal Entity, one must be created.
 - LACDMH will issue separate provider authorizations for UCC based on the available funding sources allocated for UCC.
 - Claims must be submitted with measurement code MJ in the SV103 fleld and number of hours in SV104
 - Eg: If 60 minutes of service are rendered, the claim must be submitted with MJ in SV103 and 1 in SV04.
 - If 120 minutes of service are rendered, the claim must be submitted with MJ in SV103 and 2 in SV04.
 - The minimum measurement that can be submitted on a claim is 1.
 - The maximum measurement that can be submitted on a Med-Cal claim is 20 and on a non Medi-Cal claim is 24.

6.2 Generation of Outbound 837 Medi-Cal Claims

- 1. The Practitioner's Taxonomy will be transmitted to the state based on the information stored in the IBHIS Practitioner/Performing Provider table.
- The Pregnancy Indicator will be transmitted to the state based on the information stored in the IBHIS
 Client Condition Pregnancy table. EDI Providers will update the pregnancy information via Client
 Web Services or Fee-for-Service providers will update client pregnancy information using
 ProviderConnect.
- 3. The Katie A. Demonstration Project Identifier will be transmitted to the state when it has been received from the Inbound 837 to LA County.
- 4. The Health Maintenance Organization (HMO) Medicare Risk indicator will be transmitted to the state when it has been received from the inbound 837 to LA County.
- 5. The Healthy Families SED indicator will be transmitted to the state based on the information received from the Inbound 837 to LA County.
- 6. Claims are only sent to the state when the Financial Eligibility/Eligibility Verified flag is set to Yes via Client Web Services. Providers indicate to LA County DMH which claims are to be sent to the state by using Medi-Cal Authorizations on their EDI claims.
- 7. Financial Eligibility for Medi-Cal and LA County is generated on behalf of the Trading Partner via Client Services when a client is admitted or updated. The client's demographic information that's sent to the state comes from the Financial Eligibility information stored in IBHIS as the subscriber information. The following data elements will be sent on outbound 837P and 837I Medi-Cal claims based on the information created for Financial Eligibility for Medi-Cal:
 - Client's Relationship To Subscriber Self
 - Subscriber First Name
 - Subscriber Last Name
 - Subscriber Address
 - Subscriber Zip
 - Subscriber City
 - Subscriber State
 - Subscriber Policy # CIN #
 - Subscriber Assignment of Benefits
 - Subscriber Release of Information
 - Subscriber's Gender

Guarantor Order – will be calculated based on whether there were prior payer adjudications that were submitted on the inbound 837

The following data elements will be sent on outbound 837P and 837I claims from the inbound claims when the claim was previously adjudicated by Medicare/OHC and included the Medicare/OHC loop:

- Guarantor Order
- Client's Relationship To Subscriber
- Subscriber First Name
- Subscriber Last Name
- Subscriber Address
- Subscriber Zip
- Subscriber City
- Subscriber State
- Subscriber Policy # (CIN for Medi-Cal, HIC for Medicare, subscriber ID for OHC)
- Subscriber Assignment of Benefits
- Subscriber Release of Information
- Subscriber's Gender

Client Date of Birth will also be sent on outbound 837 Medi-Cal claims.

8. The following data elements will be sent on outbound 837I Medi-Cal claims based on the information entered via the Client Web Services Admit and Discharge Client routines:

- Admission Date and Time
- Discharge Date and Time
- Type of Admission
- Source of Admission
- Type of Discharge
- 837P claims transmitted to the state send the diagnosis code which was received on the inbound 837P claim.
- 10. 837I claims transmitted to the state send the principal diagnosis code which was received on the inbound 837I claim and send the admitting diagnosis based on the admitting diagnosis entered via the Client Web Services diagnosis calls. System expects an admitting diagnosis with a diagnosis date on or before the episode admission date.

6.3 Generation of Outbound 835 Files to Contract Providers

1. Per the national HIPAA 835 guide, IBHIS uses the Claim Status Code values 1, 2 and 3 (CLP02) when adjudicating original claims, regardless of whether the claim was approved or denied. IBHIS does not return the Claim Status Code 4 when a claim is denied.

7 ACKNOWLEDGEMENTS AND/OR REPORTS

7.1 Acknowledgements

- 1. LACDMH returns an Interchange Acknowledgment (TA1) segment when requested, based on the value transmitted in ISA14. LACDMH recommends that the provider request for the acknowledgement receipt (value 1) for all submissions.
- 2. LACDMH provides Implementation Acknowledgment transactions (999) for all inbound Functional Groups (i.e. 837s). Please refer to examples at section 10.4 for more information
- 3. LACDMH provides the Health Care Claim Acknowledgment transaction (277CA) for all claims. Only accepted claims will be assigned an IBHIS claim ID. Please refer to examples at section 10.5 for more information.
- 4. LACDMH does not request the Interchange Acknowledgments (TA1) segment on outbound interchanges.
- 5. LACDMH accepts, but does not require or process, Implementation Acknowledgment (999) transactions for all outbound Functional Groups.

7.2 Linking an 837 to the 277CA

As per the HIPAA Technical Report for the 277CA transaction, the 277CA file reports the 837's BHT03 Originator Application Transaction Identifier value in the Claim Transaction Batch Number (2200B – TRN02) of the 277CA. In order to successfully link an 837 to the correct 277CA, the 837 must contain a unique value in the BHT03 for every 837 file generated. LACDMH recommends you to use a unique BHT03 value for all your submissions.

7.3 277CA Claim Status Codes

The following scenarios will result in claim rejections that will be seen on the IBHIS 277CA:

Missing Admission Diagnosis on an Inpatient/837I claim	A6:232
Wissing Admission Diagnosis on an impatient/8371 claim	
Evidence Based Practice (EBP) code is missing	A6:442
Client's date of birth not match	A7:0
Void or Replacement Claim with invalid Payer Claim Control #	A7:0
Void or Replacement Claim where Client ID/MSO # on the Void or Replacement does not match the Client ID/MSO # of the original claim	A7:0
Date of Service is a future date	A7:0
Procedure code not defined in IBHIS MSO CPT table	A7:21 & A7:454
A replacement or void claim request will be rejected when the request is submitted prior to the receipt of payment advice (835) for	
8	A7:3
Client ID with the 'MSO' prefix but does not exist in IBHIS	A7:33
Client ID without the 'MSO' prefix	A7:33
Total claim charge amount not equal sum of line item charge amount	A7:178
A claim will be rejected if a valid ICD-9 or ICD-10 qualifier (ABJ or BJ) is sent, based on the date of service, but the diagnosis code itself (ICD-9 or ICD-10) is not valid in the Admitting Diagnosis field (837I - 2300	
HI01-2)	A7:232
